Plan Flex Raceway System

TIP: Visualize how your space might adapt and evolve over time.

What is the current use of this space?

What else might it be used for in the future?

How might furniture be rearranged?

Optimize Your Raceway

Increase your system's adaptability by adding **more** points of power access.

Power Hubs = access points for power devices

TIP: For greater flexibility at minimal cost, add more Power Hubs and connect shorter Powertracs.

Where is power being supplied from?
